HIGHLY ESTEEMED MEDICINES. FOSTER'S EGYPTIAN BALM OF LIFE.

OR NATURE'S GRAND & GENIAL AUXILIARY. A SPECIFIC for Consumption, Great Bodily Debility, Old and firmly Rooted Coughs, Flatulency, Indigestion and Bilious Disorders, Constipation and Diarrhoea, Scrophulous and Scrophulous Affections and Female Complaints.

The Egyptian Balm of Life being an invaluable Family Medicine, should not be neglected in the Spring and Fall by any member of a family, as a Grand Auxiliary to the efforts of nature, in throwing off superfluous humors, generated in the winter and summer months; thus preventing as well as otherwise curing the above distressing maladies, and giving a healthy tone and proper action to all the grand operations of the system.

This Medicine has long sustained an unrivalled character for excellence in the private practice of many eminent practitioners in Europe, yet remaining at the same time undervalued in the possession of the individual of whom it has been purchased.

It is now exerting a salutary influence on this side of the Atlantic, and is recommended to those who may be laboring under any of the diseases for which it is designed as a specific, and also as a preventive of disease, or its first appearance.

For a more particular description of the above medicine we would refer to the envelope accompanying each bottle.

Many valuable certificates might be produced of the benefit received therefrom. Hundreds in the State of Maine, as well as in other States, can testify to its superior efficacy, but the proprietor is willing for the public to judge for themselves by trial. A few names however, are referred to in the envelope accompanying each bottle.

Foster's Celebrated Nerve Ointment. For the cure of Sprains, Bruises, Cramps, Rheumatism, Contracted Muscles, Sore Throat, Stiff Neck, Pain in the Breast, Back or Joints, Throat Distemper, the Piles, &c.

The general testimony concerning this Ointment, from those who have proved its merits, is, that it is too valuable a medicine to be neglected. And indeed we might fill a book of as headed pages in giving incidents of its happy effects on the suffering.

N. B. The above Medicines are prepared only by W. A. Greenough, Portsmouth, N. H., and sold wholesale and retail by him.

Also, sold wholesale and retail by G. W. LADD, Bangor; sold also by Eld. C. Rigby & J. Knowlton, Newburg, Winthrop, Frost, Lincoln, S. Lang, Palmer, J. H. G. Washburn & Co. Belfast, Canham & Clifford, Prospect, Luther, Mudgett, North Prospect; Robert Treat and J. B. Chick, Bangor; A. J. & Nourse, Hampden; Richardson & Kennedy, Old Town; E. P. Butler & Co. Orono.

October 25. 40w& Stawley

BUCKSPORT HIGH SCHOOL, AND CLASSICAL INSTITUTE.

THIS School, now in operation, will continue permanently under the care of JOHN B. L. SOULE, A. B., an experienced and successful Instructor.

It will be the purpose of the Principal, and of those who may be connected with him, to maintain a school of the first rank—where, by means of a thorough and progressive course of study, a uniform and judicious discipline, and a careful vigilance over the intellectual and moral habits of the pupils, the young of both sexes may enjoy the greatest facilities for acquiring a sound, practical education.

Thorough instruction will be given to young gentlemen preparing for college, fitting them to enter the Freshmen, or advanced classes.

Terms of Tuition. For Common Studies, \$4.00; For Higher Branches and Languages, \$6.00.

Board may be procured on reasonable terms; and permanent arrangements will soon be made, by which pupils from abroad will be accommodated at very favorable charges.

The Fall Term will commence September 11th, and continue eleven weeks.

CANARY SEED, ALWAYS fresh by

G. W. LADD.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order; they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; P. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquire, Frankfort; Daniel Dennett, Esq. Miln; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fitz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of all sizes and varieties, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

SAMUEL L. VALENTINE.

Bangor, July 11, 1843—d and wtf

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND, PEARSON'S MILLS, BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE, at prices that cannot but be satisfactory to dealers.

New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

Bangor, July 26, 1843—d&wtf

G. W. LADD, d&w.
Aug. 25.

DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz.—where the nipple is inverted; where there is excoriation in its irritable form; or, even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is, that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

They may be found at A. P. GUILD'S, Druggist, Exchange-st.

W. A. BLAKE, August 24.

FASHIONABLE HATS.

JUST received a few cases fine Mole Skin and Natria HATS at
June 1

FLAGG'S.

PROSPECTUS OF THE MECHANIC'S RECORD.

By a vote of the late STATE CONVENTION OF MECHANICS, a Committee was authorized to issue a Prospectus for the publication, in the city of Bangor, of a monthly periodical devoted to the interests of the Mechanics of the State, and to be the organ of communication between the different Associations already formed, and the means of increasing their numbers and extending their influence.

Agreeably to their instructions, the Committee now propose to their brethren, the Mechanics of Maine, the publication of a monthly periodical earnestly devoted to their interests—to all that concerns their social relations, their scientific attainments, and their progress in self-cultivation; a publication heartily engaged in disseminating a correct public sentiment regarding useful labor—in enlarging the boundaries of science, aiding in the improvement of the arts and in spreading useful information upon all subjects connected with education and the arts, as well as an organ of communication between the Mechanic Associations in the State.

It is confidently expected that the matter for each number will be furnished by the earnest thinkers in each of the Association in the State and by men who are deeply interested in the onward progress of humanity, by means of a better and a wider spread intelligence among the people, and a broader extension of physical science and the mechanic arts.

The RECORD will be issued in a pamphlet form of convenient size for binding, upon good paper and a clear type, each number to contain as many pages as the amount of the subscription at the time of its publication will warrant.

TERMS. The RECORD will be furnished to each subscriber for one dollar a year in advance, and no subscriptions will be received without the pay.

Delegates to the State Convention, the officers of the several Mechanic Associations and mechanics generally are requested to aid in procuring subscribers and remitting the money, that the experiment so honorable to them, if successful, and so useful to the community may not fail for the want of their co-operation and influence. It is expected, also, that each Association will take immediate measures to occupy a portion of the RECORD in those matters deemed of the greatest interest in advancing the cause which the mechanics in this State, for themselves, have so unanimously undertaken.

* The first number will be put to press as soon as notice is received of a sufficient subscription to sustain the publication.

JAMES R. MACOMBER, ABNER R. HOLLOWELL, OLIVER S. BEALE.

BANGOR, August 23, 1843.

PAIGE & HALL,

DR. PUSEY'S SERMON, PREACHED before the University in Oxford,

price 6 cts. for sale by SMITH & FENNO.

July 31

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY

SEE FIRST PAGE.

There are some singular stories in circulation about the management along the St John River American settlements, respecting the election. Efforts had been made by certain locos to organize several plantations in that region. At one plantation on the day of the election, and while the voters were collecting, a man produced a letter from the American Commissioner, recommending them to vote for Mr. Cary to Congress. Many of them thought it was "a loud speak" as he was a great officer, and changed their votes in consequence. Mr. Tyler don't think much of his circular to office holders, we suppose.

At another plantation where the owners had neglected to check the voting list, the number of votes appearing rather large, it was proposed first to count them, to see how they compared—and it was found there were about a quarter more votes thrown than the whole number upon the list. It was then decided to throw all out and begin again. The votes were checked, and upon a count being made it was found that the whigs had a small majority. The political visitor present thereupon refused to let the assessors use his blank return, and the meeting dispersed. During the night, the blank return was obtained, filled out, signed and sent off by express. The owner of the blank finding he was likely to be caught in his own trap, set off in pursuit of the messenger, claimed his property, obtained it and destroyed the return.

The Professor's Dream:
Or, Sermons Non-Conductors.

The New York Evangelist, a few weeks since, contained a long article with the above caption, which we should be glad to transfer to our columns, but for want of space, we must endeavor to give the pith of the matter within a compass we can command.

The pious old professor attended public worship, and sat listening and trying to catch something of the sermon; but in the effort to guard up his mind in order to give attention, and as the preaching did not come to him and he attempting to reach forward after it, through the weakness of the flesh, unwilling as he was, he fell asleep. The voice of the preacher kept up so much consciousness of what was passing, that his mind ran on religious worship, the labors of the week held him in thought in explaining to his pupils, the phenomena of nature.

He was speaking, as he thought, of the difference between conducting and non-conducting bodies, as regards heat and electricity. As he sat midway between delivering a scientific lecture and hearing a sermon, in the phantastic jangling of a dream, he imagined that one of his pupils asked if serious were not non-conductors.

"Non-conductors of what?"
"Why of heat, and light, and divinity."
"Well," replied the professor, amid peals of laughter, "you must have the credit of inventing some new terms in science, for it is new to hear of conductors of light and divinity."
"Why, I am, sure you would never get any electricity through that sermon; and as to light and heat, it is a perfect absurdity; it will let nothing out: nothing can be radiated or reflected from such a substance."

The gladness diffused over the congregation by the conclusion of the sermon, awoke the professor, who, in meditating upon his dream, concluded it might serve as an illustration. Some ministers, he thought, at all times, and all sometimes, are too lifeless and dull in their performances, to make their hearers feel as though God's truth were sounding in their ears. Truth is not preached much as the hand organ gives out music. If "Thus saith the Lord" do not beam from the eye, and breathe in the intonations of the voice, and hang about all the lineaments of the countenance, the mere cold, dead utterance of words will not pour life and light from heaven into those who sit to hear.

Sometimes the preacher stands between God and his hearers, by overtasking the intellectual powers to the utter neglect of the moral affections. Every Bible doctrine is practical, spiritual, and experimental. Every thing in the Bible bears upon the heart. When left in its simple, original form, it all comes from God and leads to God; but when wrought into human speculations, its glory is departed.

Those who deal much in controversy, and love it, are apt to imbibe an unchristian spirit towards those from whom they differ, and to infuse it into their hearers. Victory becomes the absorbing topic.

The preacher, whose manner savors of self-consequence, and who appears to think the force and authority of what he says depend mainly on his saying it; and who seems to think the Scriptures acquire new excellency by passing through his lips, is likely to prove a non-conducting minister.

Those and similar kinds of preaching and preachers are calculated rather to isolate the souls of their hearers, than to electrify them with streams of heavenly breathings—they are non-conductors.

On our first page may be found Mr. O'Connell's plan for the Restoration of the Irish Parliament, which reached this country in the last steam ship.

Some person, we don't know who, has very well said, and we wish our neighbor across the square would think of it, that he looks upon a man's attachment to a woman who deserves it, as the greatest possible safeguard to him in his dealings with the world; it keeps him from all those small vices which unfettered youth think little of, but which certainly, though slowly, undermine the foundation of better things, till in the end the whole fabric of right and wrong gives way under the assault of temptation.

The Belfast Journal has read the Enquirer of this city, out of the "democratic" party in a severe manner, but whether the Enquirer will stay read out is what we very much doubt. The whole of modern democracy seems to consist according to the doctrine of the leaders, in voting for regular nominations without a why or wherefore. It is by this system alone that the leaders can secure the spoils of victory, and if they are to lose these they don't care a fig about the party.

It appears that a certain very fat public functionary, who is paid a large salary for attending to business upon the border, from his singularity of conduct affords a vast amount of amusement to the settlers in that whole region, and the various anecdotes related of him whenever a few of the settlers, or lumbermen get together, afford quite a merry making and roars of laughter. We have a notion of collecting a portion of these anecdotes and publishing them for the entertainment of our readers.

We understand that the U. S. Boundary Commissioner with the Portland portion of his crew went from the boundary line to Portland, for the purpose of voting at the annual election. It is further said that the Commissioner is so fond of horse flesh that he rides by Expresses and drives his own team instead of traveling by stage.

We are requested to state that the Penobscot Association of the Universalist churches, will be holden at Orono, on Wednesday and Thursday the 27th and 28th inst. Those who desire it can purchase tickets for conveyance by the Rail Road, at a reduced price, by calling upon Mr. Jos. N. Downer or M. S. Jackson & Co.

An extra train of cars will leave this city on the Oldtown road at half past nine o'clock, A. M. on Wednesday next, for the accommodation of those who wish to attend the annual association of the Universalist churches in this county.

The young man who in a deranged state escaped three or four weeks since from a sick bed, was seen a few days since in the woods. Large numbers turned out to find him but without success.

A correspondent of the Gloucester Telegraph states that there probably sail from and are owned in that port, at least 120 sail of fishing schooners, manned by over 1000 men.

The Eastport Sentinel establishment is offered for sale. A good chance for an investment by a practical printer.

The alarm of fire last evening is said to have been occasioned by a fire at Brewer, probably a mistake.

Acquisition of the French Language.

To the Editor of the Whig & Courier:
In looking over your advertising columns, I notice that Mons. L. M. ROUSSEAU, favorably known as a teacher of the French Language, has returned and proposes forming classes for its study.
I have had the pleasure of Mons. R.'s acquaintance for some time, and have been for a short season under his instruction; from which I am able to recommend him as a gentleman and a scholar.

Mons. R. has been favorably received at Bath, Brunswick and Monmouth, at which places he has taught large classes with the greatest success. The advantages of studying the French Language with a native French teacher, are such as cannot be enjoyed under our common instructors, scarcely one of whom is able to speak the language with ease and propriety. There is now an excellent opportunity afforded to the young ladies and gentlemen of our city, to study this beautiful language, which is both an utility and an accomplishment, in the acquirement of which, leisure hours may be spent with pleasure and profit.

Yours, &c.,
CAROLUS.

Correction.

To the Editor of the Whig & Courier:
In my communication published in Tuesday's Whig, you make me say that Mr. Chase was not displeased with the idea of going to the coast of England, as he had a "love of adulation." It would be unjust to Mr. C. to let this error remain uncorrected. It was written "love of adventure." There are some other errors, but not important ones.

Election of President.

A correspondent inquires how many electoral votes each State is entitled to under the new apportionment of Congress. We have stated long since, but will state it again for the benefit of those who may have forgotten:

States.	Pres. Elec.	States.	Pres. Elec.
Maine,	9	Georgia,	10
New Hampshire,	6	Alabama,	9
Massachusetts,	12	Louisiana,	9
Vermont,	6	Mississippi,	6
Rhode Island,	4	Tennessee,	13
Connecticut,	6	Kentucky,	12
New York,	36	Ohio,	23
New Jersey,	7	Indiana,	12
Pennsylvania,	26	Michigan,	5
Delaware,	3	Illinois,	9

Required to elect, 183.
To know how many members of the House any State is entitled to, subtract two (for Senators) from its quota of electors above, and the remainder will be the number of Representatives.—N. Y. Tribune

Foreign Items.

Mr. Richard Herbert, of the Pheasant, Belfast, about ten weeks since cut a corner in his foot till it bled, he neglected it, and an inflammation ensued. This confined him to his bed about six weeks, when a fatal termination took place from mortification.

O'Connell continues to blaze away in Ireland. The agitation increases, if possible, in intensity, and the rest is kept well up to the mark—swelled by contributions from various parts of the American continent. In another column will be found his scheme for the election of the Irish parliament. He has attacked the Queen's speech with great ferocity, treating it as the speech of the Ministers, and wishing it to be believed that her Majesty was coerced into its delivery—that she is not a free agent—and that a resignation would have been the result of a refusal. This does not tally, however, with the marked intonation which her Majesty is said to have imparted to the reading of the passages about the Repeal agitation. That reading plainly indicated her feeling on the subject.

Many of the luggage trains on the Hull and Selby line exceed a quarter of a mile in length. Potatoes are so plentiful in Ireland, that they can be had in many places at a penny per stone.

The Atmospheric Railway.

Several trials were this day made in the short line from Kingstown to Dalkey, and the trains passed along at the rate of 50 miles an hour. No stoppage or interruption took place, and several trips were made with as much regularity as if the concern had been long-established. The principle is now proved to be successful, and there is no doubt that it will in many instances speedily supersede the present.

Hint to the Fair Sex.

We understand that the unmarried gentlemen of Northumberland have resolved to form themselves into an Association, to be denominated the "Shirt and Pie Club," the principal object of which is to insure suitable wives. To effect this, each member is bound under a penalty of £50 not to marry any lady who cannot, by two credible witnesses, be proved to be able to cut out and sew a shirt, make a pie, and darn a pair of stockings; and he must within six months after his marriage under a similar penalty, be able to establish that his lady has made at least a dozen of shirts, baked a dozen of pies, and darned a dozen pair of stockings. The idea has been borrowed from a club in the south, where the scheme has been eminently successful, as the young ladies, seeing that what in modern parlance are usually denominated accomplishments, were at a discount, turned their attention to what was really useful, and were, consequently, rewarded with good husbands.

Dr. Pusey's Sermon.

The morning papers of Saturday contain a correspondence between 230 members of convocation and the vice-Chancellor of Oxford. They complained of the condemnation of Dr. Pusey's sermon without a special reference to the erroneous passages, and the vice-chancellor rather angrily refused to receive the address, as reflecting on his impartiality, &c. Among the memorialists were Lords Dunsannon and Courtney, Mr. Gladstone, and Mr. Justice Coleridge. The recent condemnation of Dr. Pusey was not the mere individual act of the vice-chancellor for the time being; but Dr. Webster, before he ventured on that decisive step, laid the whole matter before his superior, (the Duke of Wellington, the chancellor of Oxford.) The reply of the chancellor was, we hear, given with his grace's usual brevity and decision. "He must recant or he must be silenced."

Last week, a curious piece of gold, of twisted workmanship, said to be worth as old gold £20, was found by a farm servant, ploughing a field belonging to Mr. H. Lillywhite, of Ropley, Havts. It is supposed to be a collar worn by the Romans, of very neat workmanship, in a good state of preservation, and is now in the possession of the Rev. S. Maddock, vicar Ropley.

An experiment with the electric light, which has been talked of so much as a substitute for gas, was made a few nights ago on the top of a house on the Quay Conti, in Paris. The light was so brilliant, that, at a distance of 200 metres (about 220 imperial yards), it was possible to read print or manuscript.
There is at present in full flower, in the garden of Mr. Blair, surgeon, in Kircubright, a splendid specimen of the "Yucca gloriosa"—vulgarily called "Adam's Needle." The trunk is bare for about four feet; and then out of it, as it were, the root and leaves of a pine apple rises a stem of nearly eight feet in height, on which are upwards of 700 flowers. The plant has been seventeen years in its present situation, and never flowered before.

A new repeal cap, of black velvet, lined with green, modelled from an ancient Irish crown, has been published by a Dublin artist, and is recommended to the repealers for general adoption, instead of the puritanical English felt hat.

A horse, which has been injured for twenty-one days in the Aldfield Colliery, Fenton, ever since the sides of the pit fell in on the 21st of July, and was without food or water for sixteen days, was taken out alive on the 11th ult. and has since perfectly recovered.

Richard Willis, a brother of the poet, is residing in Frankfurt, Germany, pursuing the study of music as a profession. He possesses extraordinary talent for so young a man, and is destined if he lives, to supply the gap in our musical history, deficient as it now is, of any celebrated compositions.

A fish Runaway with a Brigs's Anchor. On the 22d of August, as the brig Roweno was laying in Laguayra roads, the weather perfectly calm, I discovered the vessel moving slowly about among the shipping, I could not conceive what could be the matter. I ordered to beave in and see if the anchor was gone, but it was not—but to my surprise I found a tremendous monster entangled fast to the buoy-rope, and moving the anchor slowly along the bottom; I then had the fish towed ashore—it was of a flatish shape, something like a devil fish, but very curious shape, being wider than it was long, and having two tasks, one each side of the mouth, and a very small tail in proportion to the fish, exactly like a bat's tail. The tail can be seen on board the brig Roweno. The dimensions of the fish were as follows: length from end to the tail to end of the tasks 18 feet—from wing to wing 20 feet—the mouth 4 feet wide, and its weight 3,500lbs.—C. S. Dill.—U. S. Gaz.

Nature makes no provision for drones in the human family.—She has provided work for all, and says to them, in tones not to be misunderstood, Go work in my vineyard. Our usefulness in society, and our own happiness, demand that we should do something—that we should bear some part in the active drama of life—
"I suppose," said a quack, while feeling the pulse of the patient, "that you think me a fool!"
"Sir," replied the sick man, "I perceive you can discover a man's thoughts by his pulse."

Saturday Night.

How many a happy, sweet and hallowed thought, arising from the sentence, "Saturday night," is indeed, but the prelude to many pure, more holy, more heavenly associations, which the tired frame and thankful soul hails with new and renewed joy at each succeeding return.

'Tis then the din of busy life ceases—that cares and anxieties are forgotten; that the worn-out frame seeks its needed repose, and the mind its relaxation from earth and its concerns—with joy looking to the coming day of rest so wisely and beneficently set apart for man's peace and happiness by the Creator.

The tired laborer seeks now his own neat cottage, to which he has been a stranger perhaps the past week, where loving wife and smiling children meet him with smiles and caresses.

Here he realizes the bliss of hard earned comfort; and, at this time, perhaps, more than any other, the happiness of domestic life and its attendant blessings.

Released from the distracting cares of the week, the professional man gladly beholds the return of "Saturday night," and as gladly seeks, in the clustering vines nourished by his parental care, the reality of those joys which are only his to know at these peculiar seasons and under these congenial circumstances—so faithfully and vividly evidenced by this periodical acme of enjoyments and repose.

The lone widow, too, who has toiled on day after day to support her little charge—how gratefully does she resign her cares at the return of "Saturday night," and thank her God for these kind resting places in the way of life, by which she is encouraged from week to week to hold on her way.

But on whose ear does the sound of "Saturday night" strike more pleasantly than the devoted Christian? Here he looks up amid the blessings showered upon him and thanks God with humble reverence for their continuance.

His waiting soul looks forward to that morn when, sweetly smiling, the great Redeemer burst death's portals and completed man's redemption. His willing soul expands at the thought of waiting on God in the sanctuary on the coming day: and gladly forgets the narrow bounds of time and its concerns, save spiritual; that he may feast on joys ever new; ever beautiful; ever glorious; ever sufficient to satiate the joy fraught soul that rightly seeks His aid.

It leads him to the Lamb of God for protection; and rationally points out the way to joys on high—an endless Sabbath—a perpetual rest for the vigilant, the watchful, the faithful.

Hallo, captain stop! shouted a little bracing on board of one of the Sound steamboats.
"For what?" asked the captain.
"I've lost my apple overboard!"

BY THE MAIL.

A Whig Representative Elected in Portland.

At the second trial to elect Representatives in Portland on Thursday, Hon. Josiah S. Little, nominated in place of Mr. Hart, who declined, was elected. The other two candidates fell short about twenty votes of an election. The next time they will succeed.

We learn from the Eastport Sentinel that Samuel Bucknam, Whig, was elected representative of that town on the second trial.

William Troop, Esq. (Whig) was elected representative to the Legislature from Pitston on Monday last.

Hurricane in Cuba.

There was a violent hurricane on the 18th ult., on a part of the coast of Cuba, extending from Limonar in the jurisdiction of the Matanzas, to the districts of Soledad de Bemba, Rague, Gaumatas, and Cimimerones. The loss of property, principally on shore, is estimated at upwards of \$100,000.

Melancholy Disaster.

The Gloucester Telegraph of the 20th contains an account of the loss in the gale on the 20th of August, of the schooner Byron, Capt. Geo. Watson, of that place with all on board, numbering ten persons, 6 of whom have left families at that place. The individuals whose names are given, are among the most worthy and valuable citizens of that town.

The schooner had on board, when last spoken, 130 barrels of Mackerel. The vessel and cargo were valued at \$5000.

Brig Orchilla of this port from Pt. Peter, for Wilmington; put into Grand Turk 5th inst., with loss of 2d officer and two men. All the rest sick except the Captain and one man.

The schooner Megunticook, from Camden, Maine, lying at the foot of Spain street, Third Municipality, New Orleans, loaded with Lime, took fire on the 9th instant. She was dismantled, and scuttled on the opposite side of the River.

Major Valentine Bennett, one of the members of the unfortunate Santa Fe Expedition, died at Gonzales, Texas, on the 24th of July, of the camp colic.

DIED.

In Woolwich, Miss Mary S. Gilmore, aged 26.

VALUABLE FARM FOR SALE.
THE Subscriber offers for sale the FARM recently occupied by Nathaniel Goodhue, at Linneus, nine miles this side of Houlton, on the Military Road. Said farm consists of 300 acres of first rate land, 100 acres being in grass and tillage, a good house and two good barns, a good well of water, sheds and other outbuildings, all having been built within 6 years. The terms of sale will be liberal, or the farm can be exchanged for property in this city.
IRA GOODHUE.
Bangor, August 8, 1843—dlw w6

FARM FOR SALE.
THE subscriber offers for sale, that tract of land known as the Todd farm in the town of Chester. It is pleasantly situated on the river about four miles above Lincoln village and consists of about 85 acres mostly excellent tillage land, including eight or ten acres of intervals. There is a small house upon it somewhat out of repair and a moderate sized barn. To an experienced and practical Farmer, who would improve it himself, this Farm would be highly valuable, as it will yield with suitable cultivation a large crop of Hay and Grain, which in that situation must always command a market at good prices. It will be sold on reasonable terms on application to me at Bangor.
GEO. B. MOODY.
Attorney for CHARLES H. TODD.
Bangor, August 9, 1843—dlw w6

MINIATURE PAINTING.
W. L. TORREY.
No. 16 West Market Place,.....Bangor, OFFERS his professional services to the citizens of Bangor as a MINIATURE PAINTER. He has opened rooms in West Market Place adjoining to and opposite the Lafayette Banking room. His success in other places and the skill he hopes to display here he trusts will give entire confidence to all who may wish to avail themselves of a correct and life-like likeness of their own person or that of their cherished friends. His paintings are all of one style and one price, and such as is believed will be satisfactory to all who can appreciate the beauties of the art. The public are invited to visit his rooms and examine his specimens.
Bangor, July 23, 1843—dlw w6

CELEBRATED FAMILY MEDICINES
THESE Medicines are purely Vegetable, and extensively used in various parts of the United States, the British Provinces and the West Indies.

They are particularly intended for the removal of chronic diseases, such as habitual or periodical Head-ache, Catarrh, Consumption of the lungs, various affections of the stomach, liver, bowels, kidneys, urinary vessels, glands, &c. Dropsy, Rheumatism, Gout, and some of the preparations, viz. the Biliotic Pills, Pile, Haemorrhoid Mixture, and anti-acid preparations. They generally used, their effect is opening obstructions, removing all morbid and offensive matter from the stomach and bowels, which he has reason to think is a satisfactory effect in all cases within the control of medicine. They operate as preventives in various epidemical diseases, such as Intermittent, Inflammatory, Biliotic, and common Typhus fevers, Inflammations of the Lungs, Hoarseness, Pleurisy, Cholera Morbus, Diarrhea, &c.; they are preventives to some contagious diseases, such as Yellow-Scarlet and Putrid fevers, and although there are some contagious diseases which they are not capable of preventing, such as small pox, measles, hooping cough, &c. yet he, from many years experience, has become

dent, that all those who contract any of those diseases, while under the influence of these medicines, taken in such doses as to keep up and maintain a healthy action in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are easily managed—whereas, on the contrary, doubtless in many cases, they would prove not only distressing, but uncontrollable and dangerous.

Vegetable Bilious Bitters.
 Prepared exclusively at my Dispensary in Cape Elizabeth, near Portland, Me. These Bitters are

These Pills are particularly serviceable in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a loss of appetite.

Vegetable Bilious Pills.

These Pills are intended to remove all Bilious Obstructions, regulate the Secretions of the Stomach, Liver, Bowels and Kidneys, and to restore a healthy action in the digestive organs, by removing all unhealthy matter from the elementary canals.

Jamdisce Mixture.

This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper tone, or have become torpid, attended with obstinate obstructions. It is also an efficacious remedy for bile, and for which the directions accompanying the medicine are to be strictly observed.

Hemorrhoidal, or Pile Powder.

This medicine may be relied upon to give immediate relief to their use, whenever it will be necessary.

reure; skin then is preserved cool, with erect, a certain
cure.

Compound Strengthening Plaster.

A local weakness, or a pain in the chest, stomach,
side, or back, will, in most cases, be removed by the ap-
plication of this plaster to the part affected.

Ointment for the Cure of Cutaneous Eruptions.

A few spritzing applications of this ointment, morning
and evening, will be found a safe and efficacious remedy
in all cutaneous eruptions. It is a remedy for eruptions
of the face, with which children are so often afflicted,
and even in cases of scald head, a lousiness of the
of the head, in which scalp it is covered with a con-
sistent scab, it is a safe application, effecting a cure.
It will generally cure that troublesome and truly perplex-
ing humor, called by many the Barber's or Jackson itch,
observing in all cases, to take the ANTISEPTIC
and COOLING POWDER, according to its accompa-
nying directions.

Cough Mixture.

A remedy for all coughs proceeding from colds, with
chronic catarrhs, consumption, influenza, and in-
flammation of the lungs or pleura. It is also found
very useful in ameliorating the violence of whooping
cough.

For a more full and particular description of diseases,
and the medicine to be applied, I beg leave to refer you
to my Circular, in pamphlet form, which may be had

wherever the medicines are for sale, and to the remarks accompanying them.

OILED CLOTHING.

SUPPORT HOME MANUFACTURES!

SUPPORT HOME MANUFACTURES
MASON H. WILDER,
69 Broad street, Bangor,
MANUFACTURER and Dealer in Oiled Cloth-
ing, Tarpaulin Hats, Glazed Caps, India Rubber Aprons for Lumbermen, &c. Dealers in want of these articles, will find it to their advantage to call, as he sells cheaper than can be bought in Boston or elsewhere, and as good as the best, as the rapid sale of the article proves; notwithstanding the efforts of some of those who have Western clothing to sell, to make people believe that a garment oiled in the State of Maine, cannot by any possibility whatever, keep out the water.

Clothes re-oiled at short notice. India Rubber cloth prepared for carriages and knapsacks. He will also attend to the business of **RE-OILING PAPER** neatly and promptly.

Bangor, June 30, 1843.

TEETH BRUSHES.
A GOOD assortment for sale by

KOLMSTOCK'S VERMIFUGE.
This remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults. THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for their sickness, until too late to cure the real cause.
 What immense responsibility then rests upon the parent who does not know, and the doctor who does not understand, the complaint which is destroying those precious flowers of life—children.
 What should be done?
 The answer is plain. Give this vermifuge, which is the only safe and reliable remedy for worms; and

will be sure to do good, if they have no other way. If they have, it will destroy and eradicate them with a certainty and precision truly astonishing. It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. Mercury is the basis of most worm remedies; and this remedy is sometimes worse than the disease. I never use lozenges, but rely upon this. Every person will be convinced on one trial, that it is the most perfect cure ever invented.

The immense sale that this vermifuge has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to all persons whom they think may be benefitted by it.

Speak of it in all families, and you will do good.

Yours for the afflicted,
J. C. A. D.

duty to your fellow creatures, and re-
the approbation of all good men, and will receive
your reward in heaven.

We call on all good citizens to make known the
effects of this wonderful remedy.

Remember and ask for *Kolman's Vermifuge*,
though Fahnestock's is supposed to be the same thing.
The title: the one that has become known to your friends
the advertisement should be used, in justice to the
proprietors.
